

Labs4rescue

at the Killingworth Town Picnic

URGENT HELP NEEDED- Many of the shelters Labs4Rescue saves Labs from, are in the areas devastated by Hurricane Katrina. Our group members in Louisiana and Mississippi are overwhelmed with requests for intake of labs due to the hurricane. Can you please help? We urgently need foster homes to help Labs we save from the hurricane stricken areas. If you can be a foster home, please complete our Foster Application Form. If you can't be a foster home, but would like to help, financial donations will allow us to provide medical care and board Labs until foster homes and adopters can be identified. PLEASE help us to help these labs in this time of crisis. Please send donations to Labs4Rescue, P.O. Box 955, Killingworth, CT 06419. Email- info@labs4rescue.com. We have many dogs in need of homes right here in the state. Please contact us for more information or to adopt a Lab in your area.
