

**OUR GOAL:
PROMOTE & ADVANCE
RESPONSIBLE
PET OWNERSHIP**

Labs4rescue, Inc. is a volunteer, 501(c)(3) non-profit organization dedicated to rescuing and finding permanent loving homes for abandoned or displaced Labrador Retrievers and Labrador Mixes.

All Labs4rescue dogs undergo an initial veterinary screening and receive any necessary medical care before being placed in a foster home.

Only Labs that are appropriately socialized will be offered for adoption. All adoptable Labs have been vaccinated, spayed/neutered, and treated for any prior medical condition. Labs also are started on heartworm prevention treatment.

"Save a Lab, have a friend for life!"

SPONSOR A LAB

For the many people who are unable to adopt or foster a Lab, the best way to make a difference is through sponsorship. By sponsoring a Lab, you help pay for veterinary care, food and temporary shelter. Your sponsorship helps cover a Lab's expenses - so that we can help even more Labs!

To sponsor a homeless Lab:

Send Labs4rescue a check or money order, or donate online with Paypal. Any amount is appreciated. Your generosity will go a long way in helping our Labs!

ADOPT A LAB

Labs4rescue would love to help you find your new family member! We have adopted over **12,000** Labs since we began in July 2002. Chances are, we currently have several Labs happily living in your community, who along with their "forever family," would be happy to provide a reference.

The adoption process:

- Visit our website at www.labs4rescue.com.
- View our adoptable Labs on Petfinder.
- Fill out our on-line adoption application.
- A phone call will take place to make sure the Lab you desire matches up with your preferences and your family's lifestyle.
- A Labs4rescue volunteer will visit your home to make sure it is a safe environment and the Lab you have chosen will fit in well with your family.
- The best and last step: the Lab will join its forever family - YOURS!

FOSTER A LAB

Animal shelters in some parts of the country are full of purebred Labs and Lab mixes. The majority of these abandoned Labs never find a loving family in the few short days they are available for adoption. Instead, they meet a terrible fate.

Labs4rescue's ability to save adoptable dogs from these "high-kill" shelters is limited by a severe shortage of foster homes in New England.

Can you open your heart and home to a discarded Lab for a few short weeks? Just until a permanent, loving family is found? We will bring a foster dog directly to your area from these dangerous shelters.

To apply to foster a Lab: Please complete the foster application form on www.Labs4rescue.com. You choose the Lab you would like to foster.
