

# *Lindsey Rivers Photography*

## *It's all about the L4R dogs!*

I'm a photographer for families, children and babies. I have two dogs and know how important they are to your family. I also know the importance of creating lasting memories of our dogs. That's what I want to do for you. I have created a mini session on August 24<sup>th</sup> rain date the 25<sup>th</sup> so I can capture the love, fun and whimsy of your dog and the emotion and essence of your relationship. The portraits I will create will be a lasting memory of your love for your dog.

This fundraiser will help raise money for Labs 4 Rescue every session that is booked \$50.00 of the session fee will be donated to L4R.

Each session is \$175.00. Everything is included with these sessions, sitting fee and copyright to the digital negatives fully edited. Your session will be 30 minutes long. The client will be shown 25 images from the session on their digital negative CD. You may then print the pictures out as you wish; I include a copyright in order to print.

The session will be held at Southford Falls in Southford CT, I chose this location because it is dog friendly and also has the woods feel and also the fields are great. The sessions will begin at 10:00am and go until 3:30 each session will be 30 minutes and you can choose your time slot. I can add more times onto the session if need be if it fills up.
