"Save a Lab, have a friend for life!"

Labs4rescue is a volunteer, non-profit organization dedicated to rescuing and finding permanent, loving homes for displaced Labrador Retrievers and Labrador mixes.

- All Labs undergo an initial veterinary screening and receive treatment as required. They are then placed in loving foster homes for nurturing and further evaluation.
- Only Labs with socially acceptable behaviors that can be responsibly placed are offered for adoption.
- All Labs offered for adoption are vaccinated, spayed/neutered, started on heartworm prevention and treated for any prevailing medical or health conditions.

If you are interested in adopting a Lab, fostering a Lab, making a donation or volunteering, please check our website or contact us for additional information.
